To lead men build harmonious home with godly values

Father-Child Bonding Challenges

01 Too much distractions

02 Busy life for both father & child

03 Communication

Solution

The Fathers@WSPS group was formed with the intention of creating a platform to promote and cultivate bonds between fathers and their children within the community of the White Sands Primary School. We believe in the positive influence a father plays in their child's life, and seek to inspire, encourage, and provide support to the fathers of the children in White Sands Primary School.

Building a brotherhood

It's common to see 'generations' – *yes, generations* – of members of White Sands Primary School's Fathers@WSPS group grabbing coffee together early in the morning.

These casual coffee sessions are where fathers discuss upcoming events or simply catch up with each other. Through these gatherings, they not only build a strong support network but also form lasting friendships.

Father-Child Bonding Value Proposition

- 01 Kids often feel more secure and self-confident, which helps them navigate challenges.
- 02 Academic performance tends to improve, as do social skills, because engaged dads often encourage curiosity and resilience.
- 03 Emotional well-being is another huge benefit; kids with involved fathers usually have fewer behavioral problems and lower rates of depression and anxiety.

Sunday (10 March) well spent with fellow fathers who took their time off to join us for **Fathers @ WSPS** event-Fun Hike & Exploration. We were blessed with good weather and active participants of close to 70pax finding iconic check points in the island. Hope all participants enjoyed themselves and we look forward to seeing everyone in more events this year.

Fathers @ WSPS

Formed in 2016, Fathers@WSPS is now 8 years old. We welcome passionate fathers to join our community to explore Father-child bonding; experience Father-Father Brotherhood that evolve into many Harmonious Families.
